

Have you ever wished you never had to shave, pluck or wax unwanted hair -ever again? And have you ever worried about the pain involved?

Now there's a way to have long-lasting hair removal that is entirely comfortable, thanks to the revolutionary Spa SHR system.

We are pleased to offer Spa SHR Super Hair Removal, and have provided this pamphlet to answer some common questions and let you know what might be possible.

Pain-Free, Hair-Free

for comfort

If you're considering a way to permanently reduce unwanted hair from anywhere on your body - including your face or neck—ask your spa aesthetician to discuss the Spa SHR™ benefits and the areas you'd like to target

Pain-Free Hair Removal

Skin Rejuvenation

Smooth skin

IN-Motion technology

Virtually painless

PBSPH10060801Rev.3

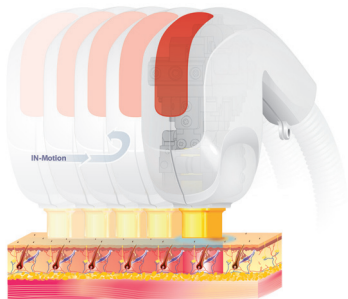

## Spa SHR—Pain free hair removal

Spa SHR is a state-of-the-art pain free system that is specially designed to permanently reduce unwanted hair faster, more comfortably, and with fewer visits than ever before. Now, because of the patented IN-Motion™ technique and the contact cooling tip technology of Spa SHR, you can even treat sensitive areas without the discomfort you might have experienced with other hair removal options. By using a sweeping, paintbrush technique, your Spa SHR session will be shorter, more comfortable and provide great results.

## More comfortable than most

The Spa SHR gently heats targeted areas under your skin, while you remain comfortable. Many people focus on legs, arms, bikini line, their back or stomach, although face and neck sessions are also possible.

Many people have said that Spa SHR treatments are similar to a "hot stone massage".

## Technology in motion

Spa SHR™ is permanent hair removal at its finest. The IN-Motion™ technique gradually heats the hair follicles under the skin until they can no longer produce new hair. Since the light handpiece is in constant motion, your treatment area can be wider - making sessions go quickly.

In addition, a patented contact cooling tip mechanism ensures the surface of your skin always stays cool and comfortable.

## Safe for all skin types, year round

The Spa SHR treatment solution is suitable for all skin types, including tanned skin. You can expect results from a series of relatively short sessions.

The Spa SHR is safe and effective for use all year long - even when you've already had some summer sun exposure, or when your skin may be drier than normal from winter's cold.

## Fast and Comfortable Hair Removal

Spa SHR treatments are:

- Virtually pain-free
- Long-lasting
- Quick—sessions usually under an hour long
- Recovery-free, so you can return to normal activities immediately
- Effective for all skin types, including tanned skin, as well as different hair types
- More complete in coverage than other laser hair removal options
- Perfect for any area of the body—including more sensitive areas like the face, neck and bikini area

## Safe and effective

Hair removal is one of the most well-known and researched uses of light. Thousands of people worldwide now enjoy the luxury of smooth skin, thanks to Spa SHR.

Imagine the possibilities, with Spa SHR
