Laser Scanner Systems

PHOTON

S-PHOTON20: Laser Scanner PHOTON 20

FARO PHOTON 20 Laser Scanner: includes inclination sensor, 1 licence FARO Record - recording software, 1 licence FARO Scene - analysis software.

Standard accessories include: transport case, ethernet cable, 24V power supply (90V bis 285V), 2 pairs of laser-safety glasses, User Manual.

Includes 1 year standard warranty.

NOTE: DELIVERY NOT UNTIL END OF MAY 2008!

S-PHOTON80: Laser Scanner PHOTON 80

FARO PHOTON 80 Laser Scanner: includes inclination sensor, 1 licence FARO Record - recording software, 1 licence FARO Scene - analysis software.

Standard accessories include: transport case, ethernet cable, 24V power supply (90V bis 285V), 2 pairs of laser-safety glasses, User Manual.

Includes 1 year standard warranty.

NOTE: DELIVERY NOT UNTIL END OF MAY 2008!

S-PHOTON80-UNI: Laser Scanner PHOTON 80 (University)

FARO PHOTON 80 Laser Scanner (University): includes inclination sensor, 1 licence FARO Record - recording software, 10 licences FARO Scene - analysis software.

Standard accessories include: transport case, ethernet cable, 24V power supply (90V bis 285V), 2 pairs of laser-safety glasses, User Manual.

Includes 1 year standard warranty.

NOTE: DELIVERY NOT UNTIL END OF MAY 2008!

Laser Scanner Systems

■ 880

PREP-S-880HE80: Laser Scanner LS 880 Base System - Prepaid option

FARO Laser Scanner LS 880 PREPAID (20mw) including: 1 license of FARO Record - scan control software, 1 license of FARO Scene - Analysis software, Ethernet cross-over cable, A/C Power supply (90V to 285V), Transport case, User Manual. Prepaid Scans (PREP-LS-100) NOT included.

Laser Scanner Systems

■ 840

PREP-S-880HE40: Laser Scanner LS 840 Base System - Prepaid option

FARO Laser Scanner LS 840 PREPAID (10mw) including: 1 license of FARO Record - scan control software, 1 license of FARO Scene - Analysis software, Ethernet cross-over cable, A/C Power supply (90V to 285V), Transport case, User Manual. Prepaid Scans (PREP-LS-100) NOT included.

Accessories

Targets and Prisms

LS Spheres, Prisms, Adapters

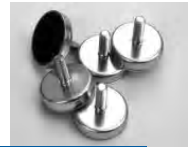

* ACCSS0253: Gloves for LS starter kit - spare part

Gloves to handle Laser Scanner registration spheres. Spare part.

* ACCSS0207: LS Magnetic Mounts - spare part

Set of 5 Magnetic Mounts for Mounting of Registration Spheres or prism kit.

* ACCSS0211: Prism - spare part

Prism measuring Registration Sphere locations with total station. -34mm offset. Magnetic mount and thread adapter are NOT included. Spare part

* ACCSS0212: Prism Height/Thread Adapter - spare part

Offset height and thread adapter for Prism for Laser Scanner LS. Spare part

* ACCSS0217: Prism Kit for Laser Scanner LS

Prism kit including thread adapter and Magnetic Mount (ACCSS0211 and ACCSS0212) for measuring LS Registration Sphere positions with total station. - horiz offset -34mm; vertical offset 72.5mm

* ACCSS0206: Registration Spheres - Rugged Starter Kit

Complete Starter kit for Laser Scanner consisting of 5 Registration Spheres Ø 150mm (ACCSS0208) with magnetic mounts (ACCSS0207) and gloves (ACCSS0253) in a rugged transport case (ACCSS0252).

* ACCSS0208: Registration Spheres for Laser Scanner LS - spare part

Set of 5 Registration Spheres. Ø 150mm. These Spheres are especially designed to be used as references for the FARO Laser Scanner LS. Magnetic mounts (ACCSS0207) and transport case are NOT included.

Accessories

Mounts

Base Plates and Mounts

* ACCSS0022: Tribrach Mount for Laser Scanner LS - spare part
Tribrach Mount for Laser Scanner LS - spare part

Accessories

Mounts

Stands and Tripods

* 11557: Dolly for LS Tripod

Dolly for LS tripod with large, individually braked wheels. Folds for transporting.

* ACCS0214: Tripod - Aluminum Telescoping Tripod for Laser Scanner LS

Portable telescoping aluminum tripod for Laser Scanner LS (reinforced version). Not to be used with Color Option.

* ACCSS0232: Tripod - Carbon Fiber tripod w/ crank for Laser Scanner LS

Carbon Fiber Tripod w/ 3 telescoping segments; Max. height: ca. 151cm; Weight: ca. 3kg; Load: max 25kg; Including geared column (20cm) and thread adapter to mount the 5/8" thread of the Laser Scanner LS. Necessary for Color Option.

Accessories

Mounts

Adapters and Risers

* ACCSS0231: 5/8" Thread adapter for Carbon Fiber tripod for Laser Scanner LS - spare part

Thread adapter to fit a photo tripod thread to the 5/8" thread of the Laser Scanner LS for Carbon Fiber tripod (ACCSS0232). Spare Part

* ACCSS0227: LS Mounting Adapter for Faro Laser Tracker tripods

Using this mounting adapter, the Laser Scanner LS can be mounted on any tripod of Faro's Laser Tracker product line.

Accessories

Computers

Systems

COMP0115: Notebook-Power User

Notebook-Power User. Power User high-end notebook computer for use with ScanArm and Laser Scanner systems. Optional upgrade for FaroArm and Laser Tracker systems. Contact your FARO representative for current specifications.

* ACCSS0250: SuperMobile LS pda ONLY - EN - no wifi stick

Apple iPod touch with 16GB memory to control the FARO Laser Scanner LS via WiFi. The user interface of the iPod touch is available in the following languages: English, French, German, Japanese, Dutch, Italian, Spanish, Portuguese, Danish, Finnish, Norwegian, Swedish, Korean, Simplified Chinese, Traditional Chinese, Russian, and Polish.

* ACCSS0251: SuperMobile LS pda set - EN

Apple iPod touch with 16GB memory to control the FARO Laser Scanner LS via WiFi. Including WiFi stick for the Laser Scanner LS.

The user interface of the iPod touch is available in the following languages: English, French, German, Japanese, Dutch, Italian, Spanish, Portuguese, Danish, Finnish, Norwegian, Swedish, Korean, Simplified Chinese, Traditional Chinese, Russian, and Polish.

Accessories

Other

Color Option

* ACCSS0236: Color option - camera D200 only

Camera Nikon D200, Nikon AF DX Lens Kit, including Fisheye Lens 10.5mm f/2.8G ED. Mounting bracket NOT included.

* ACCSS0202: Color option - camera D70s only

Camera Nikon D70s, Nikkor AF DX Fisheye 10.5mm f/2.8G ED, 1GB CompactFlash Card Ultra II, additional Nikon rechargeable battery, Transport Case. Mounting bracket NOT included.

* ACCSS0234: Color option - Camera rack D200 only

Camera rack for NIKON D200 for the parallax free mount. Mount not included (ACCSS0228); Spare part

* ACCSS0235: Color option - Camera rack D70s only

Camera rack for Nikon D70s for the parallax free mount. Mount not included (ACCSS0233); Spare part

* ACCSS0233: Color option - Parallax free camera mount - D70s bracket Only

Camera NOT included. Mounting bracket for D70s camera model. Operational software and scanner firmware update included. Enables to capture parallax free colored laser scans.

* ACCSS0228: Color option - Parallax free camera mount - D200 bracket Only

Camera NOT included. Mounting bracket for D200 camera model. Operational software and scanner firmware update included. Enables to capture parallax free colored laser scans.

* ACCSS0237: Color option Kit, Complete- D200 camera and mount included

Kit includes: Nikon D200 camera, Nikon AF DX Lens Kit, including Fisheye Lens 10.5mm f/2.8G ED; Mounting bracket for D200 camera model ONLY. Operational software and scanner firmware update included. Enables to capture parallax free colored laser scans.

Accessories

Other

Cases

* 11797: Heavy Duty Transport Case for aluminum tripod (ACCS0214)

Heavy Duty Transport Case for aluminum tripod (ACCS0214).

* 11796: Heavy Duty Transport Case for carbon fiber tripod (ACCSS0232)

Heavy Duty Transport Case for carbon fiber tripod (ACCSS0232).

* ACCSS0252: LS Rugged Sphere Case - spare part

Rugged plastic case with foam inlay to safely transport up to 5 registration spheres. Cases are stackable. Registration spheres not included. Spare part.

* ACCSS0025: LS Scanner Transport Case

Transport Case for LS Scanner including foam kit

* ACCSS0249: PowerBase Battery Case- spare part

Rugged transport case with foam inlay for PowerBase Battery, Charger and Cable. (Spare Part)

* ACCSS0226: Rucksack for the Laser Scanner LS

Super Mobile LS Rucksack allows you to conveniently carry the Laser Scanner LS in a padded backpack. Not for shipping use

Accessories

Other

Cables, Cords and Batteries

* ACCSS0213: A/C Connector box

Connector Box for the FARO Laser Scanner LS including emergency kill-switch button and ethernet port to communicate with external notebook. To be used with A/C power supply only.

* ACCSS0215: A/C Power Supply

A/C Power supply for connector box of FARO Laser Scanner LS. Outputs 24VDC/4, 1A, Lemo plug. US/EU voltage input compatible.

* ACCSS0214: Ethernet Cross-Over Cable

Ethernet cross-over cable for FARO Laser Scanner LS needed to for scanner/notebook communication. Includes water-resistant connector to be plugged to connector box or battery kit. 3m length

* K139: Lemo Connector cable LS - 20m

Lemo connection cable for FARO Laser Scanner LS. Supplies power and communication to scanner. Length 20m

* 10630-002: Lemo Connector cable LS - 30m

Lemo connection cable for FARO Laser Scanner LS. Supplies power and communication to scanner. Length 30m

* 10630-001: Lemo Connector cable LS - 5m

Lemo connection cable for FARO Laser Scanner LS. Supplies power and communication to scanner. Length 5m

* 11826: Power User Notebook Media Drive Bay Auxiliary Battery

48 WHr 6-Cell Secondary Media Bay Battery for Power User Notebook almost doubles battery life in the field and approved for use with FARO measurement systems. (Internal optical drive cannot be used in conjunction with battery)

Accessories

Other

Cables, Cords and Batteries

* ACCSS0243: PowerBase Battery

Powerbase battery to run the Laser Scanner LS. To be mounted between the tripod and the Laser Scanner LS by the means of a 5/8 inch thread. Alternatively to be mounted hanging on the tripod. Chargeable only with the charger ACCSS0245.

* ACCSS0244: PowerBase Cable

Connecting cable between PowerBase battery and Laser Scanner LS. Length approx. 50cm.

* ACCSS0245: PowerBase Charger

Charger for the PowerBase battery ONLY. Not to be used to charge any other battery system.

* ACCSS0247: PowerBase Charger Kit - full package

Super mobile battery kit with charger to run the Laser Scanner LS. To be mounted between the tripod and the Laser Scanner LS by the means of a 5/8 inch thread. Alternatively to be mounted hanging on the tripod. Consists of battery, charger and cable.

* ACCSS0246: PowerBase Kit

Super mobile battery kit to run the Laser Scanner LS. To be mounted between the tripod and the Laser Scanner LS by the means of a 5/8 inch thread. Alternatively to be mounted hanging on the tripod. Consists of battery and cable. Chargeable only with the charger ACCSS0245 (Not Included)

Accessories

Other

Misc

* 11558: Carrying Handle for Laser Scanner

Heavy Duty fold-away carrying handle specifically designed for FARO Laser Scanner systems.

* ACCSS0248: Helical Kit

Helical Kit to run the Laser Scanner LS in "Helical Mode". Kit consists of synchronisation connector integrated into the PC module and external testing board to test the synchronization signals. Factory service required for upgrades of existing units.

PREP-LS-100: Prepaid Scans (100) for LS Laser Scanner 880/840 Systems

100 Scans for PREP-S-880HE40/80 (Prepaid Laser Scanner LS 40/80) Key for 100 prepaid scans.

* ACCSS0230: WLAN USB Stick for Laser Scanner LS

WLAN USB Stick necessary to control the FARO Laser Scanner LS with a PDA or other wireless LAN appliances (IEEE 802.11b/g).

Software

Program

FARO

LS Packages >>> Architecture

10665-001: FARO Architecture Package with Architectural Desktop® & FARO Cloud

FARO Architecture Package includes AutoDesk ADT (Architectural Desktop) software including FARO Cloud software for importing, analyzing and manipulating point clouds in AutoCAD environment. Enables the user to prepare architectural drawings and floor plans using data obtained by the Laser Scanner LS.

LS Packages >>> Architecture

10665-002: FARO Architecture Package(+) with Architectural Desktop & FARO Cloud

FARO Architecture Package(+) includes AutoDesk ADT (Architectural Desktop) software including FARO Cloud software for importing, analyzing and manipulating point clouds in AutoCAD environment. Enables the user to prepare architectural drawings and floor plans using data obtained by the Laser Scanner LS. Includes 1 seat of FARO Scene (SOFTS0302) software.

LS Packages >>> Heritage

10619-001: FARO Heritage Package including JRC Reconstructor Full Version

FARO Heritage Package FULL VERSION includes JRC Reconstructor® that allows superior point cloud manipulation, photo overlay, 3-D photorealistic model creation and data base documentation to provide a complete solution for the preservation and documentation of national treasures.

LS Packages >>> Heritage

10619-006: FARO Heritage Package including JRC Reconstructor Full Version - University License

FARO Heritage Package FULL VERSION includes JRC Reconstructor® that allows superior point cloud manipulation, photo overlay, 3-D photorealistic model creation and data base documentation to provide a complete solution for the preservation and documentation of national treasures.

LS Packages >>> Heritage

10619-002: FARO Heritage Package(+) including JRC Reconstructor Full Version

FARO Heritage Package FULL VERSION (+) includes JRC Reconstructor® that allows superior point cloud manipulation, photo overlay, 3-D photorealistic model creation and data base documentation to provide a complete solution for the preservation and documentation of national treasures. Includes 1 seat of FARO Scene (SOFTS0302) software.

FARO

LS Packages >>> Process, Power & Piping

10631-001: FARO Process, Power & Piping Package with INOVx 3-D PlantLINx®

FARO Process, Power & Piping Package for LS includes INOVx 3-D PlantLINx® software. The combination of FARO's LS high quality data capture and INOVx 3-D PlantLINx® provides a powerful tool for capturing as-built point cloud data and preparing 3-D CAD models of existing plant configurations allowing full utilization of INOVx's Asset Documentation Services solution.

LS Packages >>> Process, Power & Piping

10631-003: FARO Process, Power & Piping Package(+) with INOVx 3-D PlantLINx®

FARO Process, Power & Piping Package(+) for LS includes INOVx 3-D PlantLINx® software. The combination of FARO's LS high quality data capture and INOVx 3-D PlantLINx® provides a powerful tool for capturing as-built point cloud data and preparing 3-D CAD models of existing plant configurations allowing full utilization of INOVx's Asset Documentation Services solution. Includes 1 seat of FARO Scene (SOFTS0302) software.

LS Packages >>> Tunnel & Mining

10664-001: FARO Tunnel & Mining Package including Real Reality Tunnel Software

FARO Tunnel & Mining Package includes the ATS Real Reality Tunnel Software – powered by SBG Geo - giving users a powerful tool to control tunnels of all shapes with unlimited opportunities. Deviations can be visualized in 3-D, in cross sections and in contour lines. Volume calculation of a theoretical tunnel can use an optional offset and can be limited laterally and vertically. The resulting volume report and the drawing functions create a detailed report and enable full control of the tunnel. For a quick check of crucial parts, users can directly display a measured tunnel and compare it with a theoretical tunnel by displaying sections, offsets, and distances to the theoretical tunnel.

FARO Scene - Record - Scout

SOFTS0302: FARO Scene

FARO Scene software is specially designed for viewing, administration and working on, of extensive 3-D scan points from high resolution 3-D laser scanners like the Laser Scanner LS. This tool allows the user to manipulate raw 3-D scan points and acquire with analysis functions initial point cloud data comprehension. Through data analysis and manipulation, scan points may be prepared for export into the user's CAD system. Complete workspace creation and manipulation tool. Contains all functionality of FARO Scout, and in addition the functions required for scan placement. Can also be used for scan acquisition.

FARO Scene - Record - Scout

SOFTS0302-TR: FARO Scene - University License

FARO Scene software is specially designed for viewing, administration and working on, of extensive 3-D scan points from high resolution 3-D laser scanners like the Laser Scanner LS. This tool allows the user to manipulate raw 3-D scan points and acquire with analysis functions initial point cloud data comprehension. Through data analysis and manipulation, scan points may be prepared for export into the user's CAD system. Complete workspace creation and manipulation tool. Contains all functionality of FARO Scout, and in addition the functions required for scan placement. Can also be used for scan acquisition.- University License

10463-001: INOVx 3D RealityLINx

RealityLINx® is an advanced Virtualization software application and is the nucleus of INOVx's Asset-Centric solutions. RealityLINx® enables end-users at industrial process plants to “virtually” navigate and walk-through their plant’s physical assets from their desktops. The client-server architecture of RealityLINx® enables every functional organization within the enterprise to access and review the plant’s physical 3D model and corresponding data. When the 3D data is linked with other asset data systems, RealityLINx® offers one common data source for all asset data including current ‘as-built’ asset conditions.
