

MP-30 Recorder

The MP 30 recorder measures and records the exerted pulling force, as well as cable laying speed and lengths

Advantages :

- ☑ Ergonomic
- ☑ Besides the ON and OFF switches, all functions can be operated by 7 buttons :
 - modification of the maximum pulling force
 - start of recording
 - end of recording
 - resetting of length
 - screen display functions (3 buttons)
- ☑ Easy complete protocol
- ☑ Visualization of data on a LCD screen
- ☑ Small in dimension, the unit fits into a protective carrying case after its use
- ☑ Connection to a PC to print the cable-laying protocol
- ☑ All recorded data can appear on a spreadsheet (Excel), thus allowing prints of graphic layouts if necessary

Characteristics :

- Adaptable to all Plumett winches
- Various measuring scales if required
- LCD retro lighting display
- Anti-corrosion thermo-lacquered steel case
- IP 54
- EMP certified
- International or imperial system measuring units
- RS 232 serial link (USB with USB-RS 232 adaptor)
- 213 x 158 x 85 mm - 1,8 kg
- Carrying case
